Leaders as Growth Catalysts

12–13 SEPT, 2025

DELHI, NCR

Course Overview:

In today's dynamic and fast-evolving business environment, mid-level leaders are expected to go beyond managing tasks — they are expected to inspire, coach, and catalyze growth within their teams and across the organization. ***Leader as Growth Catalyst*** is a two-day intensive designed to equip leaders with the adaptive mindset, coaching muscle, and strategic awareness to drive sustainable performance.

Rooted in cutting-edge thinking from **Adaptive Leadership**, the **Performance Equation**, and the **6 A Coaching Model**, this program helps leaders shift from reactive problem-solvers to proactive growth multipliers. Through experiential learning, real-world business cases, and deep coaching practice, participants will explore their inner operating systems, decode what enables (and derails) performance, and develop the skills to influence without authority.

This program is not just about learning — it's about unlearning outdated patterns, applying practical tools to navigate complexity, and becoming the kind of leader who builds high-performing, resilient, and empowered teams.

Key Takeaways

- Shift from control to enablement in ambiguous, high-stakes environments
- Diagnose and address both technical and adaptive leadership challenges
- Apply the **Performance Equation** to remove interference & unlock potential
- Use the **6 A Model of Coaching** to lead powerful conversations that inspire ownership and drive action
- Build learning cultures that thrive on accountability, growth, and trust
